FLOOR PLAN

CABIN DIMENSIONS

Interior

DVD, Music, Airshow, Telephone, executive leather seats, 4 each dining table,

The Falcon 2000 cabin gives you the luxury of generous space, abundant natural light and welcome quiet. And an interior designed by BMW Group DesignWorksUSA.

The quality of the supple leathers, polished veneers and soft carpeting create an interior space that feels as good as it looks.

This cabin is also more comfortable than any other in its class. Which means you can relax over a fine meal served from your full galley, or work in your airborne office that is just as connected and equipped as the one you're used to.
